Professional Programming Experience

Scout9 — Contract Software Engineer

Jan 2023 - Present

- Implemented design decisions using CSS and Tailwind to enhance visual appeal.

- Worked with React and Next.js to create a responsive and interactive user experience with server side rendering.

- Demonstrated the ability to be a quick learner using technologies I had no prior experience with such as Next.js, MDX and Algolia, while working with and contributing to an existing code base.

- Utilized version control systems, such as Git, to manage codebase and collaborate with team members.

Projects

Scout9 - Documentation Page

Tasked with improving the documentation page of a soon to be launched product for a startup company. Worked with an existing code base that used Next.js and documentation written in MDX.

- Improved styling of the documentation page utilizing CSS and Tailwind creating a modern and more user friendly experience.

- Increased accessibility of the documentation by incorporating the Algolia Search Engine. This allowed users to quickly search and access different parts of the documentation using Algolia instant search.

PlusExp! - Gamified Daily Task Planner

Created a gamified daily task planner where users gain experience points for completing tasks. Experience points are used to increase user's level with the goal to increase incentives and make the process of completing daily tasks more enjoyable.

- Utilized a React frontend with a Rails backend.

- Full encrypted login system to authorize users created using Bcrypt and Rails. Stored individual user data with Rails as well.

- Incorporated Drag and Drop technologies for a more interactive user experience.

Education

Flatiron School — *Full Stack Software Engineering Program*

University of Washington — *BA Political Science*

SKILLS

JavaScript

React

Next.js

Ruby

Ruby on Rails

HTML

CSS

MD/MDX

Tailwind

TypeScript

SQL

Git + Github

ActiveRecord

Redux/Recoil

Bootstrap

Bcrypt

Other Experience

Wells Fargo

Bank Teller

Lancer Hospitality (Woodland Park Zoo)

Shift Lead
